### About this item

- CUP HOLDER EXPANDER FOR OVERSIZE BOTTLES/MUGS: The 4, rubber tabs keep most oversize (3.4"-3.8") bottles or mugs securely in place. Perfect for certain versions of Hydro Flask, YETI, RTIC, Nalgene, CamelBak, Klean Kanteen and more (does not fit 14oz or 46oz YETI Ramblers). Please compare bottle dimensions to provided product dimensions before purchasing.
- 3-RING EXPANDABLE BASE: Adjustable base has an expandable diameter from 2.5"-3.75". This allows the adapter to stay firmly in place, regardless of how rough the terrain gets. Please compare your vehicle cup holder to this product before purchasing. This model works best in cylindrical cup holders. It does not work well in most square cup holders or cup holders that are recessed into the console.
- SLOT FOR COFFEE MUGS: The 1 inch slot is integrated into the design so coffee mugs will fit with ease. This is perfect for the popular YETI 24oz Rambler (14oz Rambler does NOT fit). Please compare dimensions of desired coffee mug to the product dimensions before purchasing.
- EASY INSTALLATION: Just hold the base and twist the top, the base will then retract or expand. Comes with instruction card.
- UNIVERSAL: Fits in almost anything with a cup holder; such as vehicles, boats, RV's, UTV's, etc. However, some cup holder designs will not work. PLEASE REVIEW THE PICTURED DIMENSIONS TO ENSURE A PROPER FITMENT BEFORE PURCHASING.

How customer reviews and ratings work

## Customers say

Customers find the cup holder expander fits perfectly in various vehicles, including the 2015 Silverado and Kia Sportage consoles, and is easy to install with no assembly required. The product is well-made, sturdy, and easily adjustable, with one customer noting it's solid as expensive versions. While some customers praise its design, others find it not the greatest quality item. The stability receives mixed feedback, with some customers reporting it stays firmly in place while driving while others mention it sometimes slips out.

**Fantastic fit for Hydroflask, no rolling while driving, almost fits truck cup holder**

Reviewed in the United States on January 27, 2024

Color: Black **Verified Purchase**

Great cup holder! Fits my Hydroflask perfectly. I am so glad I bought this product verses a slightly cheaper option I was looking at. The other option did not have the rubber lining that this one offers to ensure a tight fit so that the bottle doesn't roll around while you drive. My only complaint is that the bottom on the holder does not quite fit my truck's built-in cup holder. If the insert piece was a bit longer, then it would reach the bottom and fit more securely. At the moment, the product is gripping onto the side of the built-in holder. I think it will be secure enough not to fall out. I use my truck as an emergency response vehicle, so I need something that stays extra secure. So far so good. I may just have to get another one for my Subaru.

I bought several of these for myself and gifts. These are well made and twist to adjust for the size of your travel mug or cup etc. They are very sturdy and I am very pleased with them. It's not to pricey. You can buy cheaper ones but you get what you pay for and these are not flimsy they are made with quality materials.

**Helpful, but not that great.....**

Reviewed in the United States on November 13, 2024

I have a Toyota Land Cruiser which in itself is a nightmare because the cupholders are so awful and poorly engineered so it may not be totally this device's fault. A full 32oz water bottle will tip over and pull holder out and it goes flying, so FYI. As hard as I crank to expand the legs, it will eventually come loose and pop out. Again, its not getting great leverage on the trashy Toyota cup holder in the first place. It sounds like for a deeper more solid cup holder this may be the answer. For a shallow cup holder (or Toyota), I would look at other reviews for a better option.

I was sceptical about this but needed a solution for my Isuzu Ute which has small cup holders. I was unable to store anything wider than a take away coffee in the standard cup holders. This extender fits very securely with the adjustable base and non slip surface on the bottom. Now I'm able to fit any size water bottle or even a flask in the holder. It also does a great job of keeping the bottle steady and upright without moving even in my Ute which isn't the smoothest of rides. Great purchase

#### It works, but I think it's a bit too obnoxious looking

Reviewed in the United States on October 22, 2023

[Amazon Vine Customer Review of Free Product](#) ([What's this?](#))

My teenagers have a ton of wide-mouth water bottles, so we need an adapter in each car now. I thought this style (with the full cup base) might be nice but when I compare it to the other kind we have (with 3-fins) it gives me the appearance of being too obnoxious and big. I have a photo of this item (on the left) and the other kind we have with 3-fins (on the right). While they both hold the same size water bottle and are pretty similar, this product just looks strange to me and so I prefer the 3-fin style. Both do the job and hold the water bottle so they don't roll all over.

#### It holds the cup

Reviewed in the United States on October 17, 2023

[Amazon Vine Customer Review of Free Product](#) ([What's this?](#))

So my wife and I both love taking our double insulated vacuum sealed cups with us but always struggle where to put them when driving since they don't fit in standard car cup holders. This product is the answer. It sits in the cup holder, you turn part it so that it becomes snug in the cars cup holder and you are good to go. Now keep in mind your cup won't be going down in the cars cup holder, so this does make it sit up a little high. So if you drive a manual car this might be something to think about. She has a Rogue Sport 2022 and this is a 32 oz cup. Happy with the product and a I guess I will be ordering myself one now.

Reviewing Integral Hydro Car Cup Holder Expander in White for 32-40 oz. I have a few Hydro's that I use on a regular basis. One is 40oz and one is 32oz. I'm forced to lay them in my passenger seat and hope they don't leak because they don't fit in the cup holders of my Kia Sorento. Hence, this order.

It works! It fits in my cup holder easily, it fits both the 32 & the 40 oz Hydro's and keeps them stable and it looks nice in my car. It's easy to put in the cup holder and remove and looks like it will last a long time since it's thick plastic. Bonus: if your cup sweats into this holder or you spill some liquid in it, it's easy to fit a rag in it to clean it. My cup holders are round, not raised and not close to my dash or console so it fits the specs required (be sure your cup holders have none of those mentioned attributes). Good value for the price point being under 25 since I use it nearly every day.

I have this installed in my 2020 Chevy Silverado. The cup holder is very easy to 'install', as you simply place it in the cup holder and twist until the base expands and tightens within the cup holder. It fits very securely and does not even slightly pull out when lifting your cup/mug/bottle out. I've used it to hold both a Hydroflask and Yeti rambler, and both fit great. This is an excellent solution for these larger type bottles.

It took me awhile to get it to fit right in the cup spot. Finally got it to stay but it would only stay a few days or so. Keeps coming out when I pick my mug up. The rubber things on tabs keep coming off. I'm very disappointed with this. It's very frustrating!

It must be a slow week for me because I am STOKED about this cup holder expander! As soon as I pulled the expander out of the box I knew I was in for something good. It's strong, it's durable, it's very well made. I had no problems whatsoever installing it in my 2014 Ford Explorer. The fit in the car's cup holder is solid. No wobbling, no tilting, not even a smidge. Then came time to see if my 40 oz. Thermoflask (the one sold at Costco) would fit securely. Voila-- it did! Even with the silicone boot on! I'm giddy with happiness! No other cup holder expander has worked. The expander stayed put when I lifted my water bottle out too. This is going to be a lifesaver and make car rides much more enjoyable. I must tell my friends about this!
